RE: Travel Report – Fiscal Year 2016-2017

DATE: November 1, 2017

The enclosed Travel Report for Fiscal Year 2016-2017 is provided for your information. The Comptroller General's Office compiled the report as much as possible from data recorded in the state's central accounting system. Agencies and institutions that have the authority to issue their own checks and maintain their own accounting systems provided us their travel data to include in this report.

This report is prepared as a management tool to assist agency heads and state leaders in ensuring that the state's financial resources are being used efficiently. Please contact me if you have any questions about this report.

PREFACE

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2017, to the extent possible, from data recorded in the South Carolina Enterprise Information System (SCEIS). Agencies and institutions (both referred to hereafter as “agencies”) that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems, such as the state's technical colleges, state-supported universities, and certain autonomously-organized component units of the state that receive state appropriated funds, provided their travel data to us. That data also is included in this report.

This report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2016-2017 Appropriations Act. Expenditures for travel costs incurred in the issuance of bonds, state-owned leased cars, and employee moving expenses are not included. Persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee and the related travel is listed under the agency that ultimately paid for the travel.

This report is divided into four sections.

Section One contains a summary of in-state, out-of-state, and non-state employee travel and registration expenditures by agency. Out-of-state travel includes domestic travel outside the state as well as travel outside the borders of the United States. Non-state employee travel represents expenditures made by agencies on behalf of non-state employees for transportation, mileage, lodging, meals, and other charges necessary in the performance of their services while under contract with the State. This section includes registration fees and travel paid to volunteer workers. Agencies are listed in descending order beginning with the agency that has the highest total of travel expenditures.

Section Two ranks each agency by the total amount spent on in-state and out-of-state travel. Expenditures for non-state employee travel **are not** included in this section. Accordingly, an agency's rank in this section may differ from its rank in Section One.

Section Three ranks each agency by the combined total amount spent on in-state and out-of-state travel, but expenditures for non-state employee travel **are not** included in this section. Accordingly, an agency's rank in this section may differ from its rank in Section One. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, a line-item is included to show the total travel expenditures of all other employees not listed in the top twenty-five. In instances where more than one employee incurred an identical amount of travel expenditures as one of the top twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed.

Section Four contains narratives provided by each agency summarizing the type of travel incurred. Agencies are arranged alphabetically.

The second group consists of underwriting expenses. Meeting with new and potential customers and conducting the annual policy audits to review payroll information and insure proper classification of employees. The third group includes delivery of safety and loss control services to our policyholders to assist them in reducing the frequency and severity of their claims. The fourth group includes customer relation visits, attendance by key personnel at professional conferences and seminars, employee development, delivering training services, and other required travel.

Their travel included National Hurricane Conference, National Emergency Management Association Conference, Central United States Earthquake Consortium Board of Directors meetings, and in-state training events.

ADMINISTRATION DEPARTMENT

Travel expenses are necessary and vital for the South Carolina Department of Administration (Admin) to serve citizens and agency partners by providing secure, cost-effective, responsive and standardized services. Admin thoroughly scrutinizes all travel requests to ensure that they are necessary for the agency to execute its mission so that partner agencies and citizens benefit from improved service delivery. As the state worked toward moving to a shared services approach for information technology and to leveraging economies of scale in multiple business functions, Admin employees traveled for training to continually enhance improvements to and security for the South Carolina Enterprise Information System. Admin's travel also included FCC trainings to ensure the Division of Technology Operations (DTO) continued to effectively assist school districts, charter schools and libraries with the implementation of internet connectivity and updated information security solutions. Employees with Admin's Office of Executive Policy and Programs traveled for specialized training in programs that directly serve citizens in need and received training on how to improve advocacy skills.

The purpose of these activities is to obtain current information on education issues, gain awareness of the best practices in education, and facilitate collaboration in the education community. SCDE representatives are also required to perform various monitoring and auditing functions and to provide technical assistance to schools and school districts.

In many instances, the federal government mandates attendance at conferences and/or workshops to obtain current federal guidelines, regulations, and procedures for administering federally funded education programs. South Carolina's receipt of federal education funding is contingent upon attendance at many of these activities and meetings.

EDUCATION OVERSIGHT COMMITTEE

The SC Education Oversight Committee incurs travel expenses in support of professional development for its employees in completion of assigned responsibilities (e.g. development of assessment profiles). Professional development through attendance at education policy conferences and meetings also includes travel by state project director of the Middle Grades School Policy Initiative (which is administered in part through the Education Oversight Committee). Other travel expenses incurred would include professional development for Education Oversight Committee staff through continuing education initiatives in support of the individual employees' primary duties. EMPLOYMENT AND WORKFORCE DEPARTMENT

The South Carolina Department of Employment and Workforce continues to be dedicated to the minimization of unnecessary and/or superfluous in and out-of-state travel. There are numerous federal grants that SCDEW administers which require a certain amount of in and out-of-state travel. Travel by Unemployment Insurance (UI) division and Workforce and Economic Development (WED) division staff to and between their designated areas of responsibility is essential to effectively carrying out their assigned duties in accordance with federal regulations for grant administration. Additionally, there are federally sponsored training sessions pertaining to new legislation, performance metrics, and professional development, conducted specifically for the benefit of state workforce agencies nationwide. SCDEW is also committed to developing employees to be experts in their areas of responsibility, and encourages employee attendance in workshops and seminars that will allow them to better carry out the mission of the agency. Most travel expenditures are funded by the federal grants administered by the South Carolina Department of Employment and Workforce. Finally, travel expenses are closely monitored, by division, staff person, and expense category on a monthly basis to identify trends and develop action plans to keep travel expenses at an acceptable level. The agency has expanded our motor pool by purchasing two vehicles to offset the cost of mileage reimbursement for those employees who are required to travel consistently to perform their job.

Employees of the South Carolina Forestry Commission traveling out-of-state are representing the agency at forestry-related workshops, seminars, and training programs. While enhancing knowledge of forestry programs, employees gather useful data for consideration in South Carolina's forestry community. Other states' programs, objectives, and educational materials are studied. Travel also includes meeting with potential forest products industries who may be interested in South Carolina as a possible location for future plants.

Keeping abreast of other states' plans, continuing education in the forestry field, and representation of forestry in South Carolina at forest industry trade shows are the primary reasons for out-of-state travel in the agency. Attendance is also required at Forest Cooperatives and various forestry organizations in which the agency holds membership. Travel to meetings is by automobile, official and/or private, and small portion by plane.

FRANCIS MARION UNIVERSITY

Francis Marion University supports out-of-state travel for faculty and staff for the purposes of student recruitment, faculty and staff development, and participation in various academic, athletic, artistic, and professional forums that bring recognition to the University and the University community.

The University has a faculty of outstanding quality and diversity and supports faculty development through scholarship and research, continuing professional study, and participation in a wide range of academic endeavors. The University is also committed to providing continuing education to staff through attendance at workshops, conferences, and other developmental opportunities.

GOVERNOR'S OFFICE - EXECUTIVE CONTROL OF STATE

The Governor's Office, Executive Control of the State (ECOS) is responsible for administering executive functions to enhance the quality of life for all South Carolinians. Staff travel is necessary to assist the governor with administrative support, communicating with the public, and representing the Governor's policy recommendations to the Legislature and to citizens of the state. All travel expenditures are carefully scrutinized to ensure that they are absolutely necessary to reflect the Governor's commitment towards efficient state government that works toward exceptional education, economic vitality and a healthy environment. In FY 2016-2017, ECOS incurred \$720.65 in non-state employee travel. Just over half of the non-state employee travel, or \$367.20, related to mileage reimbursements to the Governor's Appointees to the South Carolina Council on the Holocaust. The remaining \$353.45 in non-state employee travel resulted from travel reimbursements to a vendor responsible for making enhancements to the software system used by the Governor's Office.

GOVERNOR'S OFFICE - STATE LAW ENFORCEMENT DIVISION (SLED)

The South Carolina Law Enforcement Division has travel expenditures for the following reasons: Law Enforcement, extraditions, executive protection, information technology and law enforcement training.

GREENVILLE TECHNICAL COLLEGE

The majority of the College's travel is to meetings that require College representation, faculty travel to student clinical/work experience sites, and faculty and staff travel to regional meetings. Out of state travel is required for employees to attend meetings, conferences, and workshops that are required to obtain and maintain college and program accreditation. It should be noted that approximately 50% of college funded travel is directly attributed to instructors, deans and academic department heads. The college utilizes grant funds, whenever possible, for employee training and development. Approximately 23% of funds used for travel are from grants.

The College is expected to have representation at national conferences. The purpose of these trips is to allow employees to keep current with the nation's trends in higher education, software development and technology changes in the various academic disciplines. Another significant portion of travel is directly related to training our Financial Aid and Office of Information Technology staff, constant training is necessary to keep them up to date on the Financial Aid regulations and

changes and upgrades to our relational database system. The majority, 76%, of the student travel was travel stipends to students paid through Special Services, Call Me Mister and Upward Bound grants.

HEALTH AND ENVIRONMENTAL CONTROL DEPARTMENT

The DHEC employees listed in the report along with their counterparts who have to travel as part of their jobs provide direct patient care, inspections and other oversight activities for the protection of the public's health and our environment. Many work out of their homes and use their personal vehicles going to homes and facilities in order to do their work. Some of the services we provide in the state's 46 counties include inspections of community residential care facilities, nursing homes, water and sewer systems, environmental waste sites, restaurants, septic tanks, hospitals, renal dialysis centers, adult day care centers, x-ray facilities, residential treatment facilities for children, hospice programs, Emergency Medical Services locations, tuberculosis therapy, investigation of food borne illnesses, communicable disease investigations, disease contract tracing, rabies, disaster and medical needs shelter support, and others.

Each out-of-state trip on agency business by a DHEC employee must be justified and approved by several managers in advance to ensure that the trip is warranted and will benefit the agency. Many of these trips are to attend training sessions to remain current with applicable rules and regulations of our federal partners, including U.S. Health and Human Services, the Centers for Disease Control and Prevention, the Environmental Protection Agency, Homeland Security and the Centers for Medicare/Medicaid Services. Some of these federally-sponsored training sessions are required for our staff to attend.

Our employees that do travel out-of-state meet with other state, regional, federal, public and industrial officials as well as attend meetings of various regional and national organizations relating to specific programs or services. They are also called upon for their expertise. Through communication, collaboration and the exchange of information, these meetings provide a forum to improve the consistency and effectiveness of South Carolina's regulatory and health programs. Our participation is needed to assure all South Carolinians that the quality of our environment and the public's health are protected as best we can.

HEALTH AND HUMAN SERVICES DEPARTMENT

TECHNICAL AND COMPREHENSIVE EDUCATION BOARD

The SC State Board for Technical and Comprehensive Education operates the SC Technical College System. The System is comprised of 16 technical colleges located strategically across the state and its statewide affiliate programs: the readySC™ program and Apprenticeship Carolina™ program. All travel incurred was in support of the agency mission to provide learning opportunities that promote the economic and human resource development of the state. Employees are required to attend various planning, budgetary, and informative work sessions throughout the state as well as meetings of regional and national higher education organizations. Also included in travel are the costs for attendance at training seminars, classes and institutions required to maintain certain certifications under federal guidelines and professional licenses. Knowledge and ideas gained at these meetings are shared throughout the technical college system and result in more efficient and effective operations.

THE CITADEL

Citadel employee travel occurs primarily for academic purposes. College Professors and Deans make up fifteen of the college’s top 25 travelers. One of the faculty recruiting and retention keys at The Citadel is an annual grant that the College’s fundraising entity, The Citadel Foundation, provides to promote academic enhancement at the college. The Foundation specifically grants funds for presentations at academic meetings, travel for research that will result in publications or presentations at academic meetings, and travel for faculty development so that junior faculty can attend academic meetings and further enhance their base of knowledge so that they will be better prepared to conduct research and make presentations. The academic departments have very little appropriated funds for travel; almost all the travel expenses for this type of travel were paid with grant funds. College Professors and Deans also lead various study abroad programs.

Aside from academic travelers, eight of the college’s athletic coaches are included in the top 25 travelers. These individuals travel specifically for recruiting purposes. The remaining top traveler for the college include the IT Director who incurred various meeting and conference costs and a student services program coordinator who traveled for recruiting purposes.

TRANSPORTATION DEPARTMENT

In keeping with the Department’s mission and to improve transportation infrastructure, SCDOT employees are members of various national committees and boards, who attend annual meetings, participate in development of highway policies, and work with other state departments of transportation to develop best practices for our industry. Overall, the majority of SCDOT’s travel costs are for the attendance of training seminars, classes and institutions required to maintain certain certifications under federal guidelines and professional licenses, most of this occurring in-state training. Other types of travel is incurred by the department for the inspection of asphalt, concrete, steel, and other material manufacturers to ensure the materials used in the construction of roads and bridges meet federal and state standards, as required by federal regulations.

TRANSPORTATION INFRASTRUCTURE BANK

Of the eight travelers listed, only one is a SCTIB employee, Tami Reed. That travel is for in-state classes.

The other seven people are SCDOT employees. We reimburse their travel when it is related to projects financed through the SCTIB. The out-of-state travel is for Engineering Inspectors to travel to material testing labs in other states to oversee testing for products used in the construction of roads and bridges.

TREASURER'S OFFICE

The State Treasurer's Office participated in high level management seminars and educational training events on investments, banking services, the Future Scholar 529 Program and other governmental fiscal and financial issues. TRI-COUNTY TECHNICAL COLLEGE

All travel expenses at Tri-County Technical College are paid from local and restricted funds. Our President's travel includes the evaluation of possible new initiatives in the operation of the college; expansion to additional campuses; working with the Foundation to obtain financial and community support for the operation of the college; establishing relations with community, state, and national leaders; and involvement with community leaders for the economic development of our three county service area. Other employee travel involves grant-related activities such as site visits for retention improvement, education workshops, and annual conferences such as SCTEA and other academic related conferences, to keep informed of current issues and regulations.

Our College encourages faculty and staff development. Specific annual conferences are attended which educate faculty and staff on current updates related to their field of instruction and others for updates on issues and business practices.

TRIDENT TECHNICAL COLLEGE

Trident Technical College incurred out of state travel expenses for faculty and staff in fiscal year 2016-17 in order to conduct college business and provide opportunities for employee professional development training. Employees attended meetings, workshops or seminars which helped them develop new programs to incorporate into college curriculum or enhance teaching and technological skills. Employees also received training for the implementation of new software. Travel funds provided opportunities to create business partnerships and identify regional service providers. Employees participated with students on college tours and other events, which assisted students in meeting the challenges, associated with the transition from high school to college.

Attendance at professional development seminars also furnished training to satisfy continuing education credit requirements for professional certifications or licensure boards. Business meetings provided a forum to discuss issues pertinent to higher education, such as budgeting or accreditation, and to share information with other colleagues. Some of the college's employees provided leadership by serving on the boards of national college organizations.

VOCATIONAL REHABILITATION DEPARTMENT

The mission of SCVRD is to prepare and assist eligible South Carolinians with disabilities to achieve and maintain competitive employment. Travel expenditures are a necessary function of the daily activities of SCVRD for purposes to include:

1. Assisting clients in resolving disability related issues that are impacting their ability to become competitively employed. Our staff provides extensive counseling and guidance services, supported employment services, on site work visits, and job placement services. Contingent on the individual needs of a client, SCVRD staff may meet with a client at an itinerant office site and on the job site once the client is placed in employment.
2. A vital step in SCVRD's Job-Readiness Program is networking with the business community to secure outsource contracts for SCVRD Job-Readiness Training facilities. Job readiness training services assist clients in developing appropriate skills and workplace behaviors.
3. Staff oversight of 25 Area Offices and 26 Job-Readiness Training facilities is required to ensure that the agency is in compliance with the rules and regulations that govern the vocational rehabilitation program. This oversight function includes staff attending meetings/trainings both in and out of the state and conducting on site visits to the various offices located throughout the state. Employees with specialty areas of expertise are responsible for serving and traveling among multiple area offices.

WIL LOU GRAY OPPORTUNITY SCHOOL

As an educational facility, the Opportunity School places a great deal of importance on the education of staff. While the Academic Staff represents 20% of our employees, their training costs is 39% of our travel to maintain their certification and ensure professional standards are maintained. Therefore, only 61% of all travel was used for training the 80% of the staff. Additionally we instituted a new workforce system. As a result, additional training was required of all administrative staff. With new USDA standards, Increased Information Technology Security Protocols, and changes in State and Federal Laws, we have been required to seek outside training to ensure we remain compliant.

WILLIAMSBURG TECHNICAL COLLEGE

Williamsburg Technical College travel consists mainly of travel for Federal TRIO Programs all non-state employee travel was for student travel for the TRIO Programs.

All other travel was specific grant travel funds or other funds used for professional development for employees. Travel such as SACSCOC conference, peer group meetings, and professional conference/training events. No unrestricted state money was used for travel.

WINTHROP UNIVERSITY

Travel at Winthrop University is encouraged for three (3) primary reasons. These include the recruitment of a high-quality and diverse student body, the recruitment of student athletes, and the development of faculty and staff in their career paths.

This development includes expenditures to send faculty and staff to conferences, workshops, and symposia which will result in higher levels of productivity and job-related competencies. It is our belief that having competent and productive employees results in being able to provide a higher quality education at the lowest possible cost to the students' families and to the taxpayers.

WORKERS' COMPENSATION COMMISSION

Travel expenditures for the SC Worker' Compensation Commission are paid out of Earmark Funds. The expenses may be classified into three categories:

1. Commission Hearings. The Commissioners conduct individual Workers' Compensation hearings in seven districts within the state. The Commissioners are assigned to a district for a period of two months before being reassigned to another district. One week per month the Commissioners conduct Appellate Hearings in Columbia.
2. Informal Conferences. Commission employees conduct Informal Conferences, which is a meeting between the parties to discuss settlement of the claim. This requires the employees to travel to different counties within the state for the purposes of conducting Informal Conferences.
3. Educational and professional training. Various educational programs and seminars for the purpose of professional development related to that individual's position.
